

## ALL BIDS REJECTED AT BIG STATE WOOL POOL SALE MONDAY

Mason County Wool Has Highest Offer of Any County in Big State Wool Auction—Farmers Will Hold Clip For Higher Price.

County Agent George Kirk is at home from Lexington where on Monday he represented the members of the Mason County Wool Pool in the big state auction held at the Central warehouse in that city. He reports that there were 24 counties of the state represented in the pool and that about 700,000 pounds of wool was offered, bids for which averaged by counties from 38 to 49.6 cents.

The successive bids were promptly rejected and the sentiment among the 200 odd farmers present was that they would hold their wool for a year before selling at the prices offered by the buyers.

Mr. Kirk was instructed by the Mason county poolers to hold the Mason county offerings for a price not below 55 cents while it seemed to be the opinion of the wool growers from other sections of the state that 60 cents should be demanded before selling.

Mason county made a splendid showing at the sale. The bids on Mason county wool were from 42 cents on the 1/4 blood combing to 52 cents on 3-8 blood combing. Our wool graded considerably above the average with a low per cent. of rejections or dead, catted, berry and black wool.

### MANY CARPENTERS LAID OFF.

Mr. Joseph Simons, general contractor, who has been employing a large list of carpenters during the Spring and summer months, has been able to catch up with his rush work and a large number of these workmen were laid off Monday at noon. Several of these carpenters are contemplating going to other cities to find work for the balance of the summer.

### PENN GROVE ENCAMPMENT.

Good music special feature of meeting.

## CAMP-MEETING BOARD WILL MEET SATURDAY

Final Arrangements for Big Campmeeting Will Be Made at Ruggles On Saturday.

The Board of Directors of Ruggles Campmeeting Association will meet next Saturday, July third at the campgrounds. This will be one of the most important meetings of the board. Final preparations will be made for the campmeeting which will be held this year from Thursday, July 29th to Sunday, August 8th, inclusive. While the principal privileges were let at the spring meeting there remains yet much to do in the way of arrangements for the meetings.

Those who have cottages engaged since last year and who do not expect to attend this year should notify the Board at this meeting. There are many applicants for cottages just waiting patiently for some one to give up their cottage so they can have a chance. The Board hopes by next year to have a new building somewhat on the order of the Kentucky Inn so that all who desire to attend may secure rooms.

"Old Settler's Day" is always a busy one for the campmeeting board. And as this will no doubt be the biggest meeting the old settlers have ever had it is only natural that the Campmeeting Board will have plenty to do.

## WILSON IN COMPLETE CONTROL OF CONVENTION

Administration Men Are Chosen For All Important Posts at San Francisco.

San Francisco, June 29.—Administration forces went into the second day of the Democratic National convention apparently in full control of the situation. Senator Glass of Virginia, as chairman of the Resolutions committee; William J. Bryan, excluded from the sub-committee of nine chosen to draft the platform, while Bainbridge Colby, still as the representative of President Wilson; Senator Joseph T. Robinson of Arkansas, another staunch Administration supporter, chosen for permanent chairman of the convention, and Administration men at the head of other committees was the line-up brought out of what had promised to be a contest. The threatened anti-Administration fight so far as it relates to the organization of the convention machinery, collapsed without a showing.

## BRYAN MAY BACK FORMER SPEAKER IN DEADLOCK

Commoner and Champ Clark Believed To Have Picked Up Old Differences—Drift To Clark Predicted.

Washington, June 29.—There are strong indications here today that the Champ Clark forces at San Francisco have come to an understanding with William Jennings Bryan.

This plan now determined upon, according to reports reaching Washington through reliable channels, is that Bryan, reversing his action at Baltimore in 1912, will throw the full weight of his influence to Clark as soon as the time appears to be ripe for this move.

Eight years ago Bryan turned the tide from Clark to Wilson after the Missouriian had gained a majority. This time, it is said, his effort will be to bring a "break" to Clark.

This plan, however, is predicated on the theory that the expected Wilson third term nomination coup will fail. If actually attempted, and that the McAdoo boomers are unable to roll up the required two-thirds majority for the President's son-in-law.

If neither Wilson nor McAdoo stampedes the convention, it is believed certain that a deadlock will develop. Those on the inside of the Clark-Bryan movement are confident that Palmer and Cox will begin to drop back after the first ballot, and that none of the dozen or more aspirants will display any dangerous strength.

Clark supporters here are extremely reticent in discussing the Bryan story. Some of the former speaker's friends not directly connected with the movement point to Bryan's refusal yesterday to discuss candidates as significant in view of his previous remarks regarding Owen and Meredith. The Commoner is expected to back Owen after he permits his alternate to carry out the primary instruction to vote for Senator Hitchcock and then shift to Clark when it becomes apparent that Owen can not "go over."

The drift to the former speaker, it is predicted by one enthusiastic Clark man here, will begin late Wednesday or Thursday.

Senator Reed of Missouri, if he is permitted to use his proxy after being denied a seat on his own account, is counted on as a strong supporter of Clark when the move gets definitely under way, and Senator Walsh, of Massachusetts, also is expected to throw his influence to the former speaker.

## CHECK NO GOOD AND OWENS IS HELD FOR CIRCUIT COURT

Brother Unable To Raise Sufficient Funds To Gain Release of Dora Owens Who Is Held in Jail.

Circuit Clerk James B. Key displayed keen judgment in refusing to release Dora Owens brought here Monday from Higginport, Ohio, under indictment for obtaining money falsely, until he found that a check offered by Owens' brother as bond, was good.

Mr. Key's bank was notified by the Higginport bank late Monday that the check for \$500 would not be honored as Owens' brother did not have that amount of money in bank. It now develops that the brother did not have the funds to meet the check but expected to be able to raise the needed amount to gain his brother's freedom and the check was accepted with the understanding that the amount would be raised or Owens would be held in jail.

The failure of the Higginport bank to advance the needed money means that Owens will be compelled to remain in the Mason county jail until the September term of the Mason Circuit Court unless in the meantime a gilt edge bond worth \$500 can be furnished to Circuit Clerk James B. Key.

Mr. Barrett will remain in Maysville until the crew arrives and will begin at once putting up the advertising matter.

The advance man announced that the Superintendent of the Maysville Chautauqua will be Mr. J. A. Higdon and that Miss Lily N. Coburn would be the Junior Leader. Mr. Barrett had no information about either the Superintendent or Junior Leader but said that Colt-Alber was quite fortunate this year in having an unusually fine lot of workers.

The advance sale of season tickets has not been this year what the committee would like for it to have been and every person who expects to take in the big meeting should purchase their ticket just as soon as possible.

## BOY GAINS FREEDOM FROM JAIL ON WRIT OF HABEAS CORPUS

Lat Fifteen years of Age Was Too Young For Trial In City Court—and Gains Release From Jail.

Judge C. D. Newell, of the Mason Circuit Court, released Willie Nace, 15 years of age, from the Mason county jail this afternoon on a writ of habeas corpus, the first issued in Mason county in many years.

It will be remembered that young Nace was arrested several weeks ago on a charge of stealing a bicycle and tried in the City Police Court. He was held to the September Grand Jury and in default of bail was sent to jail where he has since been confined.

Attorney Frank P. O'Donnell was employed by the boy's father and two affidavits were obtained showing that the boy was but 15 years of age and was therefore being unlawfully confined as the Police Court had no jurisdiction over a juvenile. After the release of the boy by Judge Newell this afternoon he was taken immediately before Juvenile Judge Purnell, who set next Saturday morning as the time for a hearing of the case. Judge Purnell allowed the boy to go on his own recognizance.

## EXAMPLE IN SIMPLE LIVING.

The public has been hearing a good deal lately about the financial status and procedure of the family of Calvin Coolidge, governor of Massachusetts and Republican candidate for the vice-presidency. And it is good for the public.

If widely published statements are trustworthy, Gov. Coolidge's "gubernatorial mansion" in Boston consists of two rooms in a humble hotel, which cost him something like \$2 a day, while his family back home lives in a house that rents for \$32 a month and hesitates to ask the landlord to paint it because he might then jump the rent to \$35. It appears, further, that the governor has never risen to the dignity of a motor car. Moreover, Mrs. Coolidge is credited with the statement that she has reduced the clothing problem to a state of masculine simplicity, because her husband chooses her dresses for her—whether on the score of taste or of cost is not altogether clear. One of the boys earns his spending money by selling papers.

Here is one of the ablest and most highly esteemed men in America public life, living on a scale of modesty and frugality which thousands of Americans in private life would consider intolerable, and yet doing it with perfect dignity, and losing nothing of other people's respect by so doing. Such an example is needed at this time.

## CONSTANTINOPLE.

The status of Turkey is slowly being worked out. Constantinople and the Straits, that great commercial prize and the cause of so many wars, while nominally remaining under the Sultan's authority, are to be controlled by an international commission under the jurisdiction of the League of Nations. This is not so good as kicking the Turks out of Europe would have been, but it is next thing to it, and along with other measures, it possibly deprives them of power for much harm to western commerce and civilization.

Only one alternative is likely to strike Americans as better than that. Is to let the Greek government, instead of an impersonal international commission take that job of bossing Constantinople and keeping the Bosphorus and the Dardanelles open to the world's commerce.

The Greeks have just been given permission to go into the Smyrna district and clean up Miss Sophia Kemal and his Turkish rebels, and will no doubt handle that job with alacrity and success. If they do, they might well be given an increasing measure of responsibility and authority in and around their glorious old capital. It would be historic justice to them, and would help to keep the unspeakable Turk properly subdued. They could probably handle the assignment under Venizelos, quite satisfactorily.

To any automobilist shaken to pieces by driving over broken roads, airplaning looks inviting, until he learns that there are "holes in the air" too.

This H. C. L. has one advantage, anyway. When things get so high that you can't buy them any more, you save a lot of money by not buying them.

Thanks to harbor strikes, New York is becoming a port of missing trade.

## TELEPHONE OPERATOR SAVES BANK.

Shelbyville, Ky., June 28.—A woman prevented robbery of the Bank of Finchville, when she fired shots, awakening citizens, it was disclosed Saturday.

Mrs. C. L. Shuck, night operator of the Home Telephone Exchange, heard a noise Friday night in the banking room, on the first floor of the building occupied by the exchange. She fired

revolver shots from a front window.

A crowd gathered and a man inside the bank could be heard working with a chisel and hammer. In response to a knock, the intruder opened the door and surrendered.

## REAL CRISIS FACES NATION'S HIGH SCHOOLS

Shortage of High School Teachers May Be Calamitous in Its Extent, Survey Indicates.

Not fewer than fifteen thousand teaching positions in public high schools will be without properly qualified teachers next September, if the estimates of A. O. Neal of the U. S. Bureau of Education, prove to be correct. The Bureau recently conducted an extensive inquiry among the high schools of the country, and more than 7,000 high schools have written of their needs.

Those schools now employ 65,857 teachers, and they will require 17,255 new teachers in the fall to provide for the normal increase in enrollment and to take the places of those who are leaving the schools for other work. Mr. Neal considers that this proportion fairly represents the general condition in high schools throughout the country, and he estimates that a total of 25,978 places must be filled before the next school term begins.

The visible supply of qualified candidates does not even approach that number. Simultaneously with the inquiry made of high schools, the Bureau requested all the colleges and universities of the United States to report the number of persons who would graduate this year, and also the number of those graduates who expect to teach in the high schools. Replies from 323 institutions show that their graduates will number 10,680 men and 9,327 women, and that 1,639 men and 4,742 women will take up the work of high school teaching. On this basis it is estimated that only 10,620 members of this year's graduating classes of all the higher institutions will accept positions in the high schools. The difference, 15,358 places, must be filled in ways that are not now apparent, or that number of classes will be without proper instruction.

## 'THE MISSION OF THE REPUBLIC'

To Be Subject at Chautauqua of Dr. S. Parkes Cadman,  
World Famous Preacher and Orator

Just because a man is a preacher is not always a guarantee of his ability to sway audiences. Nevertheless among the preachers of the country are found the men who do sway audiences.

Such a man is Dr. S. Parkes Cadman, pastor of the largest Congregational church in Brooklyn, N. Y. His power as a speaker and his ability as a thinker on national and international questions is recognized throughout the world.

He appears on the Chautauqua program this summer and will talk on "The Mission of the Republic."

Dr. Cadman has been on the public platform for over thirty years, and is

well known not only in this country, but in England.

During the past four years he has appeared on Chautauqua programs. He is a favorite among the larger universities and colleges as a commencement speaker. He has unusual power in driving home his messages to young people.

Blessed by nature with a wonderful voice which he has carefully trained through many years on the platform, Dr. Cadman reaches his audience with peculiar power. He has a splendid physique, and when he speaks you cannot be left in doubt that the power of his brain is commensurate with the size of the man.

## SUGGESTIONS MADE FOR THE SAVING OF GAS SUPPLIES

Bureau of Mines Makes Suggestions To States Where Natural Gas Is Used As Fuel.

In order that the best possible use may be made of the remaining supply of rapidly waning natural gas in this country, the National Committee on Natural Gas Conservation, after a series of meetings with the Bureau of Mines, has issued for the guidance of the State utility commissions in which natural gas is used a series of suggestions that if followed may at least reduce the severity of the shortages in different parts of the United States and prolong the supply.

The suggestions as far as they relate to the work of the public utility commissions and the consumers of natural gas are as follows:

That the State utility commissions of each state in which natural gas is used request every natural gas company in their respective states to submit to them a report on or before October 1, 1920, indicating the extent to which natural gas is supplied for industrial as well as for domestic purposes; stating in detail what arrangements in operating and financial conditions would be necessary or desirable to enable the companies to

conserve their supply of natural gas for domestic use, adding such additional data as the individual company thinks wise to make.

That where manufactured gas stoves are available for natural gas, that they be used, since by proper adjustment a more satisfactory service will result therefrom.

That the Bureau of Mines be asked to turn over to this Committee all data it may have on the carbon black industry with the view and purpose of helping this committee to determine what part of natural gas now used to manufacture carbon black could be diverted into public utility lines.

That this committee recommend that the state authorities in the natural gas states take immediate steps to eliminate all daylight burning of outdoor lamps.

That this committee recommend that the state authorities in the natural gas states take immediate steps to eliminate all unnecessary use of kerosene lamps.

That properly constructed stoves, such as are used for manufactured gas, fitted with open or grid tops and with proper burners set about one and one-quarter inches from bottom of vessels be used, more satisfaction being sure to result therefrom. That the National Gas Association of America take action to discourage the use of all stoves for natural gas which do not comply with above recommendations.

That the public utility commission in every state where natural gas is

used be requested to require every natural gas company within their respective states to formulate and put into effect by October 1, 1920, reasonable rules and regulations for approval by the state public utility commission, requiring that all natural gas must be used in an efficient and economical manner with proper appliances, and that on the failure of any patron to comply with such reasonable rules and regulations, within a reasonable time, service to be discontinued until such rules are complied with; and we recommend that in formulating such rules and regulations for the elimination of waste that the various gas companies give careful consideration to the following standards of waste elimination and adopt the same as far as practicable.

Proper adjustment of appliances, resulting in good combustion.

Burners in gas stoves to be not more than one and one-quarter inches from the cooking vessel.

Use only grid tops, or skeleton lids, on cooking stoves.

Discard all heating furnaces having an efficiency of less than seventy-five per cent. This will eliminate practically all coal furnaces and stoves converted for use of gas.

No hot water heater giving an efficiency of less than seventy-five per cent should be used.

Use no tank heaters—heater with burner underneath, without jacketing and a fine connection.

All daylight burning of lamps or gas jets should be prohibited.

That we recommend that the state utility commission in each state, where natural gas is used, require every natural gas distributing company in their respective states to furnish each consumer with a copy of the Rules and Regulations adopted by the company and approved by the state utility commission within thirty days after October 1, 1920, and require each gas company to enforce such rules and regulations as far as practicable also require each gas company to make an inspection of appliances and conditions as soon after the said rules and regulations are put in force as practicable, and keep a complete record of such inspection and subsequent inspections, in order to determine to what extent the consumers are complying with said rules and regulations.

That in the interest of improving the quality of the service to the public, giving usable cooking service during the inevitable peak-load low pressure in cold weather, and conserving the rapidly declining natural gas, that the

## MAYSVILLE TESTIMONY

Home Proof, Here, There and Everywhere.

When you see Doan's Kidney Pills recommended in this paper you must always find the recommender a Maysville resident. It's the same everywhere—in 3,800 towns in the U. S. Fifty thousand people publicly thank Doan's. What other kidney remedy can give this proof of merit, honesty and truth? Home testimony must be true or it could not be published here. Read this Maysville recommendation. Then insist on having Doan's. You will know what you are getting:

George H. King, prop. grocery, 615 E. Second St., Maysville, says: "I have used Doan's Kidney Pills off and on for several years, getting them at J. J. Wood & Son's Drug Store and I have been greatly benefited by them. Sometimes my kidneys have been out of order and the kidney secretions have been irregular in passage. I have suffered severely with aches through the small of my back. When I have been that way, I have used a box or two of Doan's Kidney Pills. They have never failed to cure the attack."

Price 60c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. King had. Foster-Bilburn Co., Mre., N. Y.

State authorities ask each natural gas company to show its patrons how the burners on now low-set natural gas cooking stoves can be raised, and show how such stoves can be properly adjusted for low pressure gas service.

## "ON WITH THE DANCE" IS A BIG FEATURE

Another of Big Feature Series To be Shown on Wednesday and Thursday Here.

Mae Murray, the pretty stage and screen player who is featured in the first George Fitzmaurice production, "On with the Dance," which is coming to the Washington and Gem Theaters for two days commencing Wednesday, is another of those talented young actresses who have risen to stardom from the ranks of the Follies. Miss Murray was a hit in the 1915 edition of the Ziegfeld show. On the authority of James Montgomery Flagg, she has the world's most famous profile.

In addition to her rare beauty and stage talents, Miss Murray is a dancer of extraordinary grace and ability. She was a headliner in vaudeville for several years. She has lately been devoting her efforts to motion pictures exclusively and has starred in legions and straight dramatic roles.

"On with the Dance" presents her as a pleasure-loving orphan who is thrown up against some members of New York's "fast set" as well as representatives of the worth-while class. How she overcomes her baser impulses and works out her destiny happily is the theme of what is declared to be a more than ordinarily interesting photoplay. George Fitzmaurice directed and Ouida Berger furnished the scenario. It is a Paramount Art-craft.
